Email: bryan_ram@hotmail.com

Linkedin account: www.linkedin.com/pub/bradley-ramsay/102/a77/5a0

Skills

Proficient in:

- React, React Native, AngularJS, Node.js, Git, AWS for DevOps, Laravel, Unreal Engine 4, Unity, GameMaker Studio, Svelte, WordPress, Heroku, Kentico CMS for ASP.NET, Audacity, UNIX, Adobe Photoshop, DirectX 9, Ionic Framework

Programming Languages

Proficient in:

- JavaScript, Typescript, HTML, CSS, JQuery, C, C++, C#, PHP, Pascal, Python, Java, Visual Basic, SQL, GraphQL

Experience

Software Developer at Playwerks, Sheffield, United Kingdom,

NOV 2018 – AUG 2021

- Collaborated on the development of Werkflows, an AWS based system that provides several modules to help businesses better automate their processes. Built in PHP, this included a CMS, ERP and CRM that could all be customised to fit the needs of each business.
- Built websites and provided support for [Patriot Games](#), [Custom Patriot Games](#), Reaction9, RehabDirect, and Thompson Trees Services. This included revamping the design and features of their current websites, and implementing Werkflows to manage content on the site, ecommerce, inventory management, staff and client schedules, payroll, etc.
- Collaborated on the development of the beta version of [Ember](#), a social media platform geared towards gamers initially built in React. More info is provided in the link.

Junior Software Developer at Digicaribbean, Barbados,

OCT 2016 – AUG 2017

- Building mobile app solutions using React Native. This included a scheduler for a cleaning service in charge of managing several condo properties.
- Designing themes and updating content for WordPress sites. This included creating custom child themes, creating and testing automated HTML emails, and collaborating remotely with team members via pull requests and code reviews on GitHub.
- Building visualisation tools using Unity, such as a [3D Model Viewer](#) and recreating condo locations in VR.
- Building [UIs for Virtual Reality](#) projects on Unreal Engine, for the HTC Vive and the Oculus Rift.

Website Content Assistant at University of the West Indies, Barbados SEP 2013 – AUG 2015

Worked as a Website Content Assistant with Campus IT Services at the University of West Indies, Cave Hill Campus 2013-2015. My responsibilities included:

- Adding and editing new content before it appeared on the Cave Hill website
- Assisting in the conceptualization and refinement of designs for new department/faculty websites, and the revamped Cave Hill website.
- Collaborating with faculty editors to work on various faculty websites. This included identifying pain points and creating action tasks from troubleshooting meetings, performing live demonstrations of the site and live hotfixes.

Achievements

Continental Games, 2019 – Current

Launched a company called Continental Games, for the purpose of developing games and providing programming services in the UK. Through the company I have:

- Currently developing a game called “Déjà Vu”, which is on [Steam Early Access](#) and was nominated for the [GDWC 2022](#) championship.
- Collaborated with Ember to launch the Ember Games Expo, a showcase event for indie game developers in Sheffield. We brought in presenters from indie friendly groups like SHINDIG, the National Videogames Museum and the Sheffield Games Collective to bring awareness to the indie gaming scene in Sheffield, with help from Kollider.
- Collaborated with companies like Zye Social, The Curve and The Developer Academy on several web projects, requiring the use of frameworks like Wordpress, Laravel and React.

Shadow Redux, 2018

Created a game called “[Shadow Redux](#)”, which has been presented at various showcase events, such as Games Britannia, and Sumo Digital’s Riverside Games Night.

Education

Sheffield Hallam University, Sheffield, United Kingdom 2017-2018

Achievement: MSc. Hons. Games Software Development

University of the West Indies, Cave Hill Campus, Barbados 2012-2015

Achievement: BSc. Hons. Computer Science (Double)
